Introduction

ABAC's Georgia Museum of Agriculture brings history to life, recreating the agricultural and rural village life in Wiregrass Georgia from 1870-1910. Outreach Programs such as Museum Led Classroom Programs bring the Museum to your group for an interactive experience focused on a selected theme.

Museum Led Classroom Programs are facilitated by a Museum staff member who provides an interactive presentation with relevant artifacts, reproduction items, and demonstrations for participants to be immersed into the selected topic. These programs are designed for up to 30 students per lesson.
