Georgia's Museum of Agriculture and Historic Village opened as the Agrirama on July 4, 1976. The grounds consist of five areas: a traditional farm community of the 1870s, an 1890s progressive farmstead, an industrial sites complex, rural town, national peanut complex, and the Museum of Agriculture Center. Over 35 structures have been relocated to the 95-acre site and faithfully restored or preserved. Costumed interpreters explain and demonstrate the life-style and activities of this time in Georgia's history.

Thank you for visiting!
